- Helps replenish fluids, electrolytes and minerals
- Effective mineral source
- Provides defense against free radicals
- Contains a synergistic combination of easily assimilated minerals including calcium, potassium, magnesium, zinc, iron, manganese, chromium, selenium
- Most popular forms of mineral supplements today are indigestible by the human body. With Electrosport, Sunrider has developed a concentrated, stable and highly assimilable liquid mineral supplement
- Helps fight free radicals in the body that damage cells and organs. An issue of Time Magazine stated: "Free radicals are cellular renegades. They wreak havoc by damaging DNA, altering biochemical compounds, corroding cell membranes and killing cells outright. Such molecular mayhem, scientists increasingly believe, plays a major role in the development of many ailments. Many researchers are convinced that the cumulative effects of free radicals also underlie the gradual deterioration that is the hallmark of aging in all individuals, healthy as well as sick."
- An excellent source of easily assimilated antioxidants (which work by preventing free radicals from oxidizing or damaging healthy cells and tissues). Research has concluded that antioxidants can effectively neutralize free radicals
- Consume within 24 hours since this formula is a food and spoils within that time if not used.
